### **Ulrich Metrology signs a multi-year contract with Héroux-Devtek for the supply of accredited calibration services**

MONTREAL: February 18, 2008 – **Ulrich Metrology Inc.**, Montreal-based leading calibration service provider, has been awarded a five-year contract by Héroux-Devtek Inc. to provide precision calibration and repair services for all of the Longueuil aerospace company's measurement equipment. The multi-disciplinary range of services includes electrical, electronic, dimensional, mechanical and pressure instruments, in accordance with the highest industry standards, as well as the requirements of NADCAP.

"Ulrich Metrology is providing Héroux-Devtek with a complete turnkey business model in response to this important mandate. We are extremely pleased to have won the trust and confidence of such an important leader in the international aerospace industry," commented Ronald Barry, Vice-President Business Development.

In addition to inspecting and calibrating their precision instruments, by certifying their accuracy at their state-of-the-art laboratories, Ulrich will provide on-site calibrations to Héroux-Devtek and will coordinate tool management logistics. "The performance results achieved since the implementation of this strategic partnership have definitely met our extremely high expectations", stated Sylvie Lacelle, Commodity Leader.

#### **About Ulrich Metrology**

Ulrich Metrology provides full-service multi-disciplinary calibration, certification and repair services to a broad range of manufacturers within the aerospace, automotive, pharmaceutical and industrial sectors. For over 31 years, the Company has been a national support partner to leading Canadian companies coast-to-coast. Calibration of electrical, dimensional, mechanical, torque, force, crimping and pressure instruments is offered both within their modern laboratory facilities and directly on-site at the customer's location. Ulrich Metrology's head office is located in Montreal, Quebec, and their ISO 17025:2005 accredited facilities are certified by the National Research Council's Calibration Laboratory Assessment Service (CLAS). In addition, the Company is registered with the Canadian Controlled Goods Program (CGP). For additional information, visit [www.ulrich.ca](http://www.ulrich.ca).

#### **About Héroux-Devtek**

Héroux-Devtek (TSX: HRX), a Canadian company, serves two main market segments: Aerospace and Industrial Products, specializing in the design, development, manufacture and repair of related systems and components. Héroux-Devtek supplies both the commercial and military sectors of the Aerospace segment with landing gear systems (including spare parts, repair and overhaul services) and airframe structural components. The Company also supplies the industrial segment with large components for power generation equipment and precision components for other industrial applications. Over 70% of the Company's sales are outside Canada, mainly in the United States. The Company's head office is located in Longueuil, Québec with facilities in the Great Montreal area (Longueuil, Dorval, Laval and Rivière-des-Prairies); Kitchener and Scarborough, Ontario; Arlington, Texas and Cincinnati, Ohio.
